

About

Dise Tree Service LLC

Tree care isn't just a service – it's our profession, our passion and our way of life.

Based out of Milica MN we proudly serve customers across the Upper Midwest with expert level of tree care you can trust.

Twenty years of climbing and fifteen years as a Certified Arborist through the International Society of Arboriculture Jess Dise (MN-4425A) brings a high level of knowledge, skill and professionalism to every job.

We follow ANSI A300 standards for proper pruning practices, ensuring the health, safety and longevity of your trees.

We specialize in high-risk removals and limited-access tree work. Jobs that require precision, experience and the right equipment. Whether a tree is in a tight space or poses a hazard to your home or property, we have the expertise to handle it safely and efficiently.

This is a family-run business, and that matters. Dawn Marie leads our sales team and serves as our safety coordinator, helping to ensure every project runs smoothly from start to finish. She is also currently preparing for her ISA certification exam, continuing our commitment to professionalism and ongoing education.

We are fully registered (2M) registered with the Department of Agriculture and maintain all required permits in cities that require them.

Our main goal is to simply deliver honest, safety, high level service to every customer that chooses us.

When you choose Dise Tree Service LLC, you're choosing experience, integrity and a team that treats your property like it's our own.

Safe. Certified. Trusted. Dise Tree Service.
